

General description

The **fusible links** are designed for use in fire damper manufacture and available in the two most common types used in HVAC applications. Their reliability and performance are supported by a UL (Underwriter Laboratories) classification. Other models and types are available upon request.

Technical specification

	TEMPERATURE	LOAD	C	L
CFLB-24-165 (Small)	165°F 72°C	10 lb. 4,5 Kg	0,938" 24 mm	1,438" 37 mm
CFLA-43-165 (Large)	165°F 72°C	30 lb. 13,5 Kg	1,750" 45 mm	2,625" 67 mm
