TECHNICAL DATA SHEET (1/1)

T - 4600 _ HK & S-HK

General description

The **HK** and **S-HK** are hooks used to fix static loads: air conditioning, suspended ceilings...

The **HK** is an anchor hook designed for fixing cables or chains in concrete or other hard materials.

The **S-HK** is designed for suspension perforated bands.

- Facilitates installation
- Strong pull-out strength
- Installation with TOOL-HK installation tool

Technical specification

	HK	S-HK
Material	Stainless steel	Stainless steel
Minimum drill depth	30 mm	30 mm
Drilling diameter	8 mm	8 mm
Dimensions	13 x 50 mm	29 x 50 mm
Tensile strength	140 kg	140 kg

There are many types of concrete with different anchoring properties. Before any installation, make sure that the concrete is compatible with this anchorage.

Application

HK

S-HK
